Summary

Full-Stack Developer with 2+ years of hands-on experience building self-engineered web applications using React, Node.js, and MongoDB. Skilled in real-time systems (live shipment tracking, crypto transactions) and full-stack deployment, from UI design to backend logic. Focused on clean, efficient code and scalable architecture for high-performance solutions.

Experience

E-Kojakoja | Web Developer

Mar 2025 – Mai 2025

- Developed real-time shipment tracking system in React, reducing customer support queries by 30%
- Engineered dynamic timeline component with API-driven conditional rendering
- Built mobile-optimized UI, improving user engagement by 25%

E-Kojakoja | Operation Agent

Jan 2024 – Mar 2025

- Sourced products from Chinese suppliers on behalf of national clients, ensuring quality and cost-effectiveness.
- Entered and maintained detailed product information in Google Sheets, enabling clear tracking and easy access for stakeholders.
- Streamlined workflows using Trello, improving team productivity by 20%

Happy Nice Guest House | Web Developer

Jan 2023 – Mar 2023

- Developed and deployed full-stack booking system (React + Node.js + MongoDB)
- Implemented secure user authentication and data storage solution

MyTransfer | IT Specialist

Feb 2022 – Apr 2022

- Contributed to the setup and deployment of a Bitcoin ATM, part of a financial inclusion initiative leveraging blockchain technology — reportedly the first of its kind in Madagascar.
- Managed Linux server setup and deployment via Digital Ocean, focusing on stability, performance, and security.

MyTransfer | Web Developer

Jan 2022 – Feb 2022

- Technical maintenance of the MyTransfer website and optimization of its features.

Equity - Unex | Cryptocurrency Transactions Manager**Dec 2020 – Dec 2021**

- Oversaw all cryptocurrency operations on the Unex platform, ensuring seamless handling of digital asset transactions.
- Managed client deposits, purchases, and withdrawals, with a strong focus on accuracy, security, and user trust.
- Delivered personalized support to users, simplifying blockchain concepts to foster understanding and encourage platform adoption.
- Acted as a bridge between technical systems and non-technical users, contributing to user growth and engagement.

Equity - Unex | IT Specialist**Dec 2020 – Dec 2021**

- Managed hardware (installation, maintenance, troubleshooting), created and launched the company's website to establish its digital presence.
- Supervised IT interns, organized their daily tasks, and provided technical guidance to ensure skill development and team productivity.

Webhelp – Air Caraïbes | Customer Advisor**Nov 2019 – Jan 2020**

- Customer advisor and reservation agent for the airline Air Caraïbes, within the Webhelp call center.
- Handling incoming calls, assisting with flight bookings, processing customer requests and providing personalized support to ensure a smooth and satisfactory experience in French.
